

HEALTHCARE TECHNOLOGY SOLUTIONS

# Telehealth & Telemedicine Maturity Workshop

Optimize your telehealth  
journey with expert guidance.

# Telehealth & Telemedicine Maturity Workshop

Improve patient experience, caregiver experience and effectiveness.

Sentinel's Telehealth & Telemedicine Maturity Workshop analyzes the current status of your distributed care environment and helps you establish a clear strategy for the future focused on optimization and growth.

Sentinel's Telehealth & Telemedicine Maturity Workshop provides a comprehensive review of your current posture and recommends ways to foster growth, improve security, and keep costs manageable. Even if you do not have any Telehealth/Telemedicine solutions in place yet, Sentinel can help define a path forward no matter your size or maturity level.

## TELEHEALTH & TELEMEDICINE PRIMARY DIFFERENCES

### TELEMEDICINE

- Using telecommunications equipment to diagnose and treat illness remotely
- Exchanging treatment notes, lab reports and prescriptions
- Providing long-term care and treatment after hospitalization

### TELEHEALTH

- Conduct remote patient monitoring
- Holding therapy sessions for mental and physical illness
- Reviewing and exchanging medical and lab reports

### SENTINEL MODERATOR QUALIFICATIONS

A 30 year Healthcare industry specialist at CIO and Director levels, with a focus on improving patient outcomes (PX) through digitization of PX, clinical processes and secure/enterprise grade IT infrastructure

## WORKSHOP OVERVIEW

### • Current State Discovery

Experts perform a comprehensive analysis of your current Telehealth/Telemedicine posture. Examining areas that begin with current state discovery and proceed to consider Provider engagement, secure solutions and controls, and organizational supportability, culminates in a customized report with prioritized recommendations.

### • Provider Engagement

The Sentinel team conducts working sessions with key personnel to review workflows.

### • Secure Solutions and Controls – *Meet Regulatory Requirements*

Sentinel reviews the security and controls within your environment to assess if they meet regulatory requirements, and recommends ways to improve the protection of critical assets.

### • Report and Presentation

Gain insights through recommendations and presentations of our findings on Telehealth /Telemedicine Maturity.

## BENEFITS

- Provides a detailed roadmap to help ensure your organization is fully prepared to handle the demands of Telehealth & Telemedicine in the future.
- Identifies areas where additional focus is required to maintain a mature Telehealth/Telemedicine practice.
- Includes an assessment featuring your overall security risk score, as well as your readiness score for each Telehealth/Telemedicine Maturity level.
